2018 TAA SCHOLARSHIP APPLICATION

For 2018, CMA Foundation scholarship funding will be awarded to full-time, secondary instrumental or choral music educators. If money remains once scholarships are awarded, additional funding will also be made available to any full-time K-12 music educator. Each applicant must have applied and been accepted to the Tennessee Arts Academy in order to submit a scholarship application form.

Consideration will be given to those applicants who 1) are first time Academy attendees; and 2) can show need. The committee values those applicants who are able to provide some funding support on their own — from their school or school system and/or from other sources (see suggested list below) — in order to help stretch the scholarship fund. However, matching money is not a requirement of this scholarship. All requests, from supplemental assistance to a full scholarship, will be given equal consideration.
