

# Bring the Museum to Your Students!

**Access more than 30,000 high-quality fine art images!**

With a Davis Digital Images subscription, you can expand your curriculum with artwork from leading museums and galleries. Find the images you need, **compare and contrast any two images**, create sets and **instant slideshows**, or add images to lessons in the Curriculum Builder. Teachers can **download any image as a high-quality JPEG**. All images in our library have been tagged with search terms specific to art education so you can find what you need quickly. Each image includes metadata that allows you to find other images from that artist, from that time period or place, medium, and much more!

The image library houses a stunning variety of art forms, showcasing artwork created across time and from cultures around the world. Our curator has organized a wide variety of searchable image sets to help with research and planning. You can **easily find images to extend each chapter and lesson in any Davis eBook**. Each subscription **includes unlimited accounts for all students and teachers within your school building**.

The quality of our images is trusted by prestigious museums who have given us permission to provide artwork from their collections. New museums and images are added regularly at no additional cost.
